nLight – the power of presence

nLight. The new seminar with Martin Brune

Whether as a teacher, hairdresser, parent, therapist, engineer, personnel, masseuse, healer, doctor, coach, musician, artist, DJ, flight attendant, pilot, project manager, agency boss or in a company: This course is for everyone, for those who want to be more awake, more relaxed and have more energy in their everyday life, in private as well as professional.

nLight. For people and companies. The development of this seminar has taken 15 years. Here the essence of all teaching is consolidated.

How can human relationships be improved?

How can you listen better?

Why do we often feel exhausted?

How can we establish a border between our inner-selves?

How can you remain resourceful?

How can you overcome tiredness?

How can you sleep better?

What do I really want in life?

What fulfils me, makes my heart beat faster?

How do I implement this?

How do I stay young?

How can your body stay young?

How can I distress my everyday life by 100%?

“True beauty comes from within,” that is how we could describe some of the results of this new “nLight” seminar. For when the body is relaxed from the inside, it shows on the outside! Seminar terms are sometimes clearer in English: “Light/enlightenment” comes from light, from brightness, source and when you have learnt to reactivate these

within your body then you open up a true gate to inner happiness. This seminar is a unique journey, a true adventure into your inner world; let yourself be cleansed.

The resolution through nLight naturally has very positive and lightening effects on the body, our appearance, our relationships, the ability to distance oneself, inner happiness, our happiness with life, the words that we choose in communication and for all things with the people that we are “attracted” to. It is a wonderful energy process that awaits you.

Motivation: All conditions of people are always mirrored in the body as feelings or emotions. There the participants learn through Martin’s guidance with the new nLight seminar in (work) everyday life/love/ and family life to be happier and more balanced. Words cannot describe nLight, it is simply new and an experience, a firework of experience and relationship (above all with yourself)!

Through many exercises and short lectures you will be connected, with what one might call source, a kind of fountain of youth. Once connected with the now and the presence of life, life develops as if by itself and: the body, the face, the hands, the eyes, the attitude and the skin relax and change. It is a great journey to our source, which is hidden deep within us.

Who is this course interesting for? For all participants, who have a lot to do with people, both professionally and in private.

‘In the presence of the now lies the heart, in the heart lies the enthusiasm, in enthusiasm lies the power.’

I invite all of you!

Background to this consultation form:

As previously described, it is about a consultation for your current life situation.

Deep within us, you can call it “the Gene”; a form of “energetic truth” is anchored. Martin Brune uses the term “energetic car.” This car (or soul) will drive in the direction of the well being of life. This means, that this car also has answers to questions that “our head” perhaps never expected. With Vesseling consulting it is all about asking these questions. It is a fantastic session full of insights, inspiration and solutions.

Reasons: In old traditions and cultures the services of consultants were retained, when it was about pending developments, projects or life decisions – whether personal or professional.

Then the consultants didn't have the task of solving the problems of others, rather through their clear-sightedness and sensitivity to help "mirror" and be an inspirational source. The consultant questions were varied – whether it was professional requests or just private concerns.

It was possible for these consultants to have a regard for the people and their environment and to look along the timeline and give holistic advice about making decisions about the feasibility of ideas and plans.

Many wrong and hasty decisions and mistakes could have been avoided.

About me: What am I, what am I not?

For a start: I am not a guru!

Nevertheless I believe that every person as a type of 'mission' on earth:

Mine is these: To help people and to inspire them to become happier. That is my greatest passion that has fascinated and excited me for over 15 years.

And: Naturally there is a connection between inner clarity and outer beauty! Why should it be any different?

How did it development from Vesseling to Presence School?

'We have now revised the text "about us." So we can now send it as a link, what Vesseling is, to all those interested, those who are ready for a clarification of the inner fantasies. You can send this link to all sceptics, big thinkers, grandparents, mothers, fathers, partners, sceptical friends and colleagues. Perhaps it will smooth out the picture and become more realistic.'

I worked as Dipl.ING. (TU/Electrical engineering) for many years, and lost my way in the wrong visions and ideas, I choose the wrong job, got involved in difficult professional relationships and reached a serious (near death) crisis. And that is somewhat of an understatement. That was more than 16 years ago. I could no longer do my job as an engineer; I was rigid with illness and lived in Cologne Volkspark. That was the end of my meteoric vehicleeer.

Through the help of many, many doctors and psychologists I got better and began to find out 'why' my life almost came to an end. I got a second chance at life, and my doctors couldn't help me anymore, I went searching in the world of alternative medicine. My search didn't take me in a spiritual direction, rather pure survival. It didn't matter to me what helped, so long as it helped!

I made a find. I visited many seminar series from South America to Nepal; however, it wasn't some great healer or Indian who healed me. It was the long slow, fantastic process of learning and practicing meditation: I discovered the unbelievable power of (Thoughtless!) presence in several steps through extreme personal experience. Put shortly: I got better again and more:

People started coming to me, in order to learn from me. I couldn't believe it at first, but through the overcoming of my past life problems, I had found my true calling: To inspire people and to find (life) ideas. Hence causing a series of seminar over the years, to help people with the power of presence and the courage of vision. The seminars are made from my experience, as someone who was at rock bottom and made it out again. I had searched for such a person but never found them. For this reason I have been consulted by therapists, doctors and people from all backgrounds. Many come to my (Thoughtless! Meditations and Compact) seminars. Taking part in the seminars is a great chance for them, they recognise the chances.

Meditation? You already know that? That's what I used to say, however after overcoming my bodily and psychological problems I found out that meditation is not deeply taught. That is what led the development of the Thoughtless! Course.

Thousands of people have gotten to know this presence work. Umpteen assistants help me to conduct the seminars. A significant part is in the Thoughtless! Meditation, in order to get more in to the calm state to discover the source of our being (nLight). It is then possible to find your thing in life, as I did. In my book "With the power of now on to happiness!," which was a bestseller in 2007. You can order it here.

Who comes to the courses? Those who see the seminar as a great chance.

No sick people come to our seminars. Sick people need medical professional help, as I did. The focus of the seminar is on improving happiness with life and finding the life vision! Therefore participants need to have inner stability. We do not see our energy work in a therapeutic, medicinal or religious context. We do not treat illnesses during the courses.

I see myself as a teacher of presence. The 'come down', the 'Thoughtless! Meditation' the 'relaxation,' vision finding are all central points of the courses and seminars.

People who want to find out how to make progress 'for themselves', find visions and just want to have more fun in their lives (again) come to our energy schools. That means that there is a lot of dancing and partying on the courses.

We do not represent a 'direction,' holistic approach and no manipulative concept of healing. We teach facilitation of the body's energy through the power of calm, through mediation, in order to find ideas and life visions through this power. You learn the form of the Vesseling session as a Vesseling practitioner as well as in groups of meditation.

We make no promises, diagnoses ('only our approach works') and do not create an unrealistic picture from teacher and assistants (a la magicians). We do not want to save the world or do missionary work (then the beginning lies with each person themselves), we do not want any identification with us, no dependence and no fighting talk.

Our energy school is a school where you learn the 'now' as transforming power.

'We would like to emphatically point out at this point that the Vesseling meditations (sessions) and vision-making, participation in seminars or consultations can or should in no way replace the visit of a doctor and the diagnostic activity and treatment. Nor should they stop taking prescribed medication from doctors.'

FAQs

FAQs

6 questions, 6 answers.

1. What do you do during the courses and seminars? What are the costs involved?

(You can get started with the Thoughtless! nLight course – the source of life)

In the energy and presence school with the power of now! you learn to clear energetic blockages of presence ('the source') that are saved in the body. In this way, that is the way to inner source and calm, that also means a freeing from limited thinking a seminar centre has arisen over the years in Germany, Austria, Holland, Spain and Central America. Esoteric? No way! You will find more about the development and about me here. A small pdf book about Vesseling is available here. The book and audiobook are available here.

The price: The price of multi day/weeklong seminars ranges from between €950-€1250 incl. half board!, excl. hotel/overnight costs. Please refer to the calendar of the necessary course description for the overall costs.

1. Which are the introductory seminars and workshops?

There are three possibilities to enter a relaxed and happy life:

- You take part in lectures, half or whole day seminars or:

Multiday seminars:

- If you are interested in an energy process and want to learn to give deep sessions, then we recommend the Basic/Seer/Visions Compact Course as an introduction. With this introduction it is possible to become a Vesseling Practitioner.
- If you just want to take the journey to your inner source in the immense power of the presence, then we recommend that you take part in the Thoughtless! nLight – the sources of your life Seminars. This course is ideal for those that work or are involved a lot with people (professionally or privately). In this course you do not need to give sessions to other people. You can learn the wonderful process of presence just for yourself and use it in everyday life.

1. How do you become a Vesseling practitioner?

You become a practitioner automatically, regardless of whether you are doing the course just for yourself or to work with people afterwards.

The order of events: 1. Taking part in the course (Basic/Seer/Visions Compact Course)
à2. Taking part in at least one Thoughtless! nLight and/or another course of your choice (related course, tool, or further Thoughtless! nLight). The process to your own transformation is made up of three courses.

The Vesseling energy courses are highly effective and transformational. They have been around for over 15 years and are permanently developed. The demand is therefore high and because of group size the courses get sold out quickly. The energy system is for all those interested, whether you choose the way "private, only for yourself" or want to use it professionally (later as a Vesseling Practitioner). The energy courses can be a true freeing course.

1. What and which sessions types can you recommend after the training, what is actually possible with Vesseling?

The classical Vesseling session:

Here they determine at the beginning of each session, a subject that is treated energetically. What is a subject? That's what you perceive as inhibiting or disturbing in life from the areas of family, friendship, love, partnership and your body: The subjects can be as varied as the people themselves. In principle the Vesseling Practitioner helps you find the subjects. For many interested people this Vesseling session is the introduction to the Vesseling Energy work. The sessions last approximately 1 hour: 10 mins briefing, 40 mins session and 10 mins debriefing. For the first time only 3 appointments are arranged.

Vesseling energy journey in groups: This energy journey is essentially a led meditation in a group. You can also bring a subject and clear the blockage just for yourself. You must not take part in the group. The energy journey is a very different event, where more people with the same intentions come together. The energy journey is often accompanied by music.

Vesseling Consulting:

As the session form previously described, this session is about consulting you on your current life situation. Background information: Deep in us, you can call it "the gene", a form of "energetic truth" is anchored. Martin Brune uses the word "energetic vehicle." This vehicle (or soul) want to drive in the direction of a feel-good life. That means that this vehicle has answers to questions that "our head" never expected. Vesseling Consulting deals with exactly that: You can ask 5 questions and answers can be found for your extremely personal energy vehicle through a Vesseling Practitioner. It is a fantastic session, full of insight, inspiration and solutions.

Vesseling Thoughtless! nLight (Introduction and Multiday seminars)

There are two ways to clear the energy field. The first way is through the valuable support from outside, in the form of the above mentioned sessions, through a Vesseling Practitioner to get rid of blockages. Another way is by learning and practicing with Thoughtless! nLight.

"True beauty really does come from within". It is a fantastic way to learn nLight. When the body is relaxed from within, then it shows in the eyes! In the English

language the seminar terms sometimes sound clearer: “light/enlightenment” comes from light, von brightness and when you learn to activate these again in your body, then a true gate of inner happiness and expanse is opened: You learn from the inside out to naturally limit yourself, without fighting talk or thought! This seminar is a unique journey, a true adventure into the world of inner happiness.

The lack of separation against our outer world with its multiple relationships and requirements, is the main reason for discomfort!

The solution through nLight has a very positive and enlightening effect on the body, our appearance, our relationships, the inner happiness, our life luck, the words that we choose to communicate with and for all things on the people that we are attracted to. It is a wonderful energy process that awaits participants.

1. Who takes part in the courses?

People like you and me! They are people who have a high interest in their own life development and want live more easily. Men and women from all backgrounds (managers, therapists, doctors, artists, young people, old people). The individual's further development is in the foreground for all participants. The energy school offers participants a course system, in order to achieve inner clarity.

All courses (Basic, Seer, Vision Compact and Master courses) are all communication seminars, in which the participants learn clear, liberating, peaceful communication (mediation). The life vision is the most interesting subject of our time. In the vision courses (after Basic and Seer course) we are the builders of our lives and set ourselves apart with the manifestation of our visions and dreams. We become creators of our lives.

1. What can the course achieve?

More zest for life, easiness, quality of life, become more present, get to know nice people and above all else have fun!

Few courses! With us you do not need to take part in a complex and lengthy course programme. We have carefully ensured that that core process is focussed on a few courses.

The current Zeitgeist and the motivation for the seminars:

To rest, relax, unwind, let go of the past, find visions that is how you could describe the Vesseling energy work. Then what is on the inside eventually shows on the outside – through mental or bodily conditions. True beauty actually comes from within. The enormous natural power of the now! helps us by the steady adoption of our life or life situation. During the course the study of the power of the now!, calm is a central point.

We are sure that with our experience and our knowledge, people and business we can

support you to go more down the way of power and happiness. Sharing and placid communication is taught in all courses and seminars. Therefore Vesseling is energetically holistic!

I have assisted people for over 14 years with the greatest enthusiasm!

Yours, Martin Brune

English

Welcome!

Most people do not live their life's dream. We have a safe job, but actually we've always wanted to be a musician, writer, gardener or artist, or simply to work with other people. We have a partner, the relationship with whom works reasonably well but only to some extent, or we live alone whilst not really wanting to.

The only way to reach the goal of personal development is to show people the personal path that makes it possible to find one's own strength. Heightened confidence raises the quality of life! The degree of satisfaction is directly dependent on the level of inner-ease in your body. The body is like a vessel of energy. Have you released heavy energies from your body today?

„Have you vesseled today?“

The release of inner barriers is a fundamental component of our energy work because our ideal way of living is often blocked by these very barriers. Through these changes, a door opens into a world that has always been there, surrounding us at all times.

The techniques we teach in the energy courses are the direction signs to this "Offload thoughts!" door – the entrance to the incredible natural energy that the Now provides us with, for the path of nature is the path of growth.

Let go of the past. Enter the Now. Find your visions and live your talents.

Everyone is welcome! – Yours, Martin Brune
